#### AI Creators / Founder

July 2022 - Present, Pune, Maharashtra, India

Founded AI Creators, an ideal lab for AI-powered applications.

Developed several products including QuizoAI, an all-in-one AI-powered quizzing platform; StudybuddyAI, a fast AI-powered studying platform for CBSE students; and LawBotAI, an AI tool that answers legal queries. Currently working on PostTrig, an AI-powered LinkedIn scheduling app that allows seamless creation and scheduling of posts up to one month in advance. Also created a newsletter, 'Latest in AI', focused on signal over noise, delivering daily AI news and a tool to assist subscribers, growing from 0 to 300 subscribers. Shared latest AI news in 60 seconds on Instagram, growing from 0 to 10k followers.

#### JoshiJampala Engineering / Graduate Engineer Trainee to Supervisor

July 2020 - July 2022, Satara, Maharashtra, India

Started as a Graduate Engineering Trainee, managing daily activities on the fabrication shop floor and planning day-to-day activities with a weekly plan. Promoted to a supervisor after 18 months, managing a team of 30 blue-collar workers. Later promoted to the assembly shop floor, handling the final stages of heavy equipment assembling, delivery, and dispatch in the high-temperature steel valves manufacturing industry. Built a no-code mobile app using Glide for enterprise resource planning.

---
